Cultivating a Growth Mindset

Goal-Setting, Reflection, and Tools to Make it Happen

Student-led goal setting and reflection are core steps in developing self-regulated and motivated learners. These learners are guided by metacognition, strategic action and invested ownership of the goal setting process.

Participants will learn critical instructional practices to support self-regulated learning, executive functioning and goal setting. They will fully set up the on-line tools to support SOWN TO GROW™ implementation. The conference fee includes a teacher license for Sown To Grow, our student goal-setting and reflection platform!

- Discover the four phases of self and peer assessment
- Co-create success criteria for quality reflection
- Become oriented and fully set up Sown To Grow (Note: teacher license is included)
- Collaboratively build a lesson plan to implement new strategies!
