

## THE EMPOWERED LEARNER SERIES

# Expanding Personalized Learning for High Impact Reading Instruction

The EmpowerED Learner series supports teachers in creating optimal conditions for student centered approaches to learning. With an emphasis on quality formative assessment, this workshop will expand teacher clarity by providing tools to be used with teacher teams and in the classroom to strengthen competency based

instruction and make the learning personal for every student. Teams will explore five core practices that underpin the “assessment for learning” process and play a fundamental role for students to own their learning at a deep level.

- Understand the research that supports personalized learning
- Leverage the five formative practices to increase student ownership
- Explore the use of learning progressions to differentiate and personalize learning
- Discover student-centered assessment tools:
  - CCSS Vertical Reading Progressions
  - Learning Target Stoplight Rubrics
  - Holistic Rubrics
  - CCSS Reading Inventories
  - Integrated Reading Continuums
